WORK EXPERIENCE

Full Stack Develop Evalbee

07/2022 - Present

Pune

Achievements/Tasks

- In my tenure at Evalbee, I have actively participated in the end-to-end development lifecycle. This includes architecting responsive and intuitive user interfaces using React.js and React Native, as well as designing robust backend systems with Spring Boot. I am well-versed in translating complex business requirements into scalable software solutions, ensuring seamless user experiences across platforms.
- I thrive in dynamic and challenging environments, where my problem-solving abilities and technical acumen are put to the test. I am dedicated to producing high-quality code and am committed to continuous learning, ensuring that my skills are always at the forefront of industry standards.

PERSONAL PROJECTS

Evalbee (Full Stack Developer)

- As a dedicated Full Stack Developer at Evalbee, I have been actively involved in the development of a comprehensive application leveraging cutting-edge technologies. Evalbee is a full stack project that combines the robustness of React.js with TypeScript for the frontend, and Spring Boot for the backend, ensuring a seamless and responsive user experience.
- Frontend: React.js, TypeScript, HTML, CSS, JavaScript Backend: Spring Boot, Java, RESTful APIs Version Control: Git/GitHub Tools: Visual Studio Code, IntelliJ IDE
- This project experience has honed my skills as a Full Stack Developer, allowing me to contribute effectively to Evalbee's success story. I look forward to further challenges and opportunities to innovate as I continue my journey with Evalbee.

Pragati Dashboard (Full Stack Developer)

- During my tenure as a Full Stack Developer, I undertook the exciting challenge of developing the Pragati Dashboard, a client project that required creating a comprehensive and intuitive dashboard solution. The project utilized React.js with TypeScript for the frontend, coupled with Spring Boot for the backend. My responsibility was to transform client requirements into a visually appealing and highly functional dashboard application.
